Powerful device location information

Get a bird's-eye view of all your locations on a map to instantly know if they are online and collecting data. Zoom in to street-level and get a 360° view of your device location, and hover over the map icon to get a quick snapshot of recently collected traffic data.

Remote Setup and Configuration of your radar VMS

Access all the functionality of your Speed Sign from anywhere in the world. Create, edit, and select messages, schedule future messages via the calendar, and configure data and radar settings.

Device health check and data at a glance

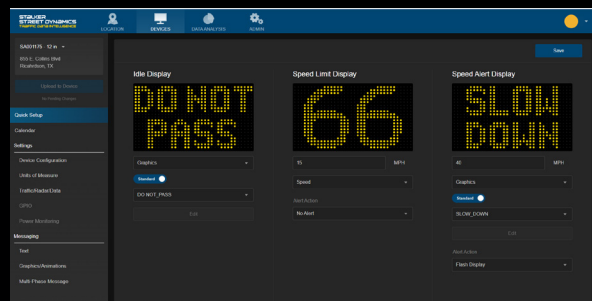

- **Quick Setup** – In just a few clicks, you can create a message sequence, complete with 3 message screens that are triggered based on passing vehicle speeds. Choose from:

- ✓ Speed
- ✓ Text
- ✓ Graphics
- ✓ Multi-Phase Message

Control the functions of your connected speed signs- right from your desk!

Calendar and Scheduling

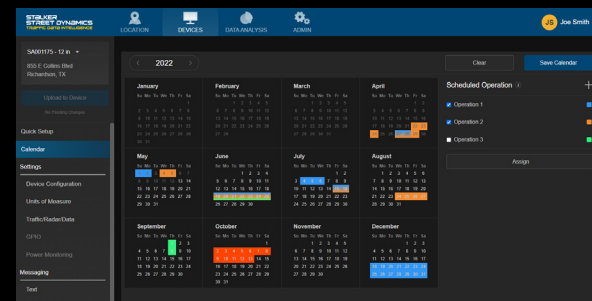

Easily schedule messages to appear on your Speed Sign days, weeks, or even months in advance. This is perfect for changing traffic patterns based on school breaks, holidays, road closures, construction, or scheduling slower speed limits in anticipation of bad weather.

Create Custom Text Messages and Graphics

System Configuration

Fine-tune your radar settings, adjust device locations, and monitor power usage.

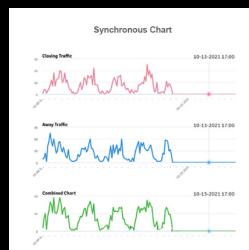

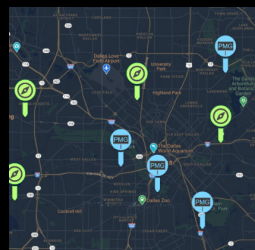

Schedule Messages to Appear on Your Sign

Publish Detailed Reports of Your Traffic Data

Choose your date range, then select from a wide variety of reports and chart types that focus on everything from average/85th percentile speeds, traffic volume, count vs. speed, speed vs. time, and more. Customize reports with your logo, then publish them in PDF form and share via email.

The Pole Mounted Radar Feedback Sign

Easy to mount and easy to move, the PMG is our most popular combination radar speed sign + messaging sign + traffic data collector for communities because it checks all the boxes and remains affordable.

The PMG can also pair with our Flood Sensor if you have problematic flood-prone areas in your community.
